

CONNECTING CANCER, HEART WITH PHOTOACOUSTICS

Advances in Ultrasound and Photoacoustic Research

From bench to bedside—let's bridge the translational gap using the Vevo platform and enjoy the beautiful Lund!

 [Lund University—Zoologihuset](#)
223 62 Lund, Sweden

Monday, April 8 at 13h30–18h
Tuesday, April 9 at 9h–13h

Agenda Overview

MONDAY, APRIL 8TH (13H30-18H)

-
- 13:30 **Arrivals and Welcome Remarks**
Greg Nesbitt—Vice President, Global High Frequency, FUJIFILM VisualSonics
Prof. David Gisselsson Nord—Vice Dean of the Medical Faculty, Lund University, Sweden
-
- 13:40 **Photoacoustic Imaging in Cancer**
Prof. Malin Malmjö—Ophthalmology Imaging Research Group, Lund, Sweden
-
- 14:10 **Molecular Imaging in Oncology**
Prof. Moustapha Hassan—Transplantation Research Institute, Karolinska institute, Sweden
-
- 14:30 **Decoding the Silent Language of Photoacoustic Imaging—
The Importance of Spectral Analysis**
Dr. Aboma Merdasa—Ophthalmology Imaging Research Group, Lund, Sweden
-
- 14:50 **Perfusion and Drug Delivery to Tumors**
Prof. Catharina de Lange Davies—Department of Physics, NTNU, Trondheim, Norway

CONNECTING CANCER, HEART WITH PHOTOACOUSTICS

Advances in Ultrasound & Photoacoustic Research

Agenda Overview

MONDAY, APRIL 8TH (13H30-18H)

15:10 **Title TBD (RegMed XP, diabetes/pancreas with PA)**
Prof. Paul Quax—Vascular Regeneration Medicine, LUMC, Leiden, The Netherlands

15:30 **Diabetic Cardiomyopathy and Pancreatic Cancer Assessed Using the Vevo System**
Dr. Madelene Ericsson—Section for Molecular Medicine, Umeå University, Sweden

Coffee Break (15:30–15:50)**Breakout Session #1 (15:50)**

Group 1	Group 2	Group 3	Group 4
Vevo F2 LAZR-X Live Session: Lund Photoacoustic Imaging Center	Ultrasound Programing Made Easy	Oxygenation vs Spectral Unmixing	Advanced Data Analysis including AI

Breakout Session #2 (16:10)

Group 1	Group 2	Group 3	Group 4
Ultrasound Programing Made Easy	Vevo F2 LAZR-X Live Session: Lund Photoacoustic Imaging Center	Advanced Data Analysis including AI	Oxygenation vs Spectral Unmixing

Q&A and Round Table Discussion (17:30)**Finding the Exit—Networking Dinner (18:00)**

CONNECTING CANCER, HEART WITH PHOTOACOUSTICS

Advances in Ultrasound & Photoacoustic Research

Agenda Overview

TUESDAY, APRIL 9TH (9H-13H)

9:00	Warm-up <i>Greg Nesbitt</i> —Vice President, Global High Frequency, FUJIFILM VisualSonics
9:10	Atherosclerotic Plaque Phenotyping using Photoacoustic Imaging <i>Dr. Margreet de Vries</i> —Leiden University Medical Center, Leiden, The Netherlands
9:40	Machine Learning in Photoacoustic Imaging <i>Dr. Victor Olariu</i> —Ophthalmology Imaging Research Group, Lund, Sweden
10:00	Ultrasound Research with Vevo MD and Vevo F2 Systems— From Newborn Babies to Plaque Risk Assessment <i>Dr. Magnus Cinthio</i> —Faculty of Engineering, Lund University, Lund, Sweden
10:20	FUJIFILM VisualSonics Innovation Roadmap: Ultrasound, Photoacoustic and Beyond <i>Dr. Jithin Jose</i> —Global Market Leader, Photoacoustics, FUJIFILM VisualSonics

Coffee Break (10:40–10:50)

Breakout Session #3 (10:50)

Group 1	Group 2	Group 3	Group 4
Oxygenation vs Spectral Unmixing	Advanced Data Analysis including AI	Vevo F2 LAZR-X Live Session: Lund Photoacoustic Imaging Center	Ultrasound Programing Made Easy

Breakout Session #4 (11:40)

Group 1	Group 2	Group 3	Group 4
Advanced Data Analysis including AI	Oxygenation vs Spectral Unmixing	Ultrasound Programing Made Easy	Vevo F2 LAZR-X Live Session: Lund Photoacoustic Imaging Center

Q&A, Round Table Discussion and Closing (12:30)

With the support of :

Lund University
Medical Laser Centre
